

Aries

Aries are known to dream big and work hard. Motivated by their *fierce ambition* and deeply rooted independence, this sign is *destined for success*. Just like their sign, the ram, they're quick to put their heads down, dig their heels into the ground, and embrace whatever chase life gives them.

Ruled by Mars, the warrior planet, Aries gains a *deep intuition* and a spirit fueled by freedom. Its rocky surface is a true representation of Arian's strong and solid vibrations. As a fire sign, Aries are always searching for those bright, new experiences that will light them up. They're *fearless and unpredictable*, dancing through life with an energetic spark that can spread like wildfire.
