

Taurus

Taurus are here for a good time. They find the most joy in *earthly pleasures* and lead their tribe with big love and a strong spirit. Just like their sign, the bull, Taurus are born with a *fierce strength* and stubbornness. They work hard to *accomplish their dreams*, and have an unstoppable energy.

Taurus will grab life by the horns and inspire those around them to do the same.

Grounded by the Earth element, Taurus holds a *patient and steady nature*. They stay optimistic through the highs and lows of life - keeping focus and staying driven. Ruled by Venus, the planet of love and beauty, Taurus *adores the little things* that add pleasure to the everyday - whether its a fine wine, the aroma of a candle, or *diamonds and gold*. Their romantic, passionate spirit is made possible by the sensual side of Venus. What goes better with *luxury* than a little love?
