

Cancer

Soft-spirited Cancer... is the friend everyone needs, and the lover everyone wants. They are all about *enjoying life* with the ones they love most. Just like their symbol, the crab, Cancer comes with a tough outer shell. If you're one of the lucky ones they open up to, don't take it for granted.

Their soul is *gracious and loving*, but the crab has claws for a reason.

This sign will not be taken advantage of... Intuitive and *ultra-sensitive*, water signs roll through the highs and lows of life just like the ocean's tide. If a member of Cancer's tribe is facing rough waters, they will give them the strength to ride it out. Reigned by the moon, their sensitive and *empathetic nature* goes through all the phases. Stay steady in this wild energy, and you'll always find a reason to dance in the moonlight.
