

Virgo

Virgo energy is *organized and focus*. If you're ruled by this sign, you have a strong spirit that is willing to put in the work. Known for being both *reliable and responsible*, if a friend is in need of practical advice, they come to you.

Ruled by the earth element, you have a *grounded nature* that feels like home. Mercury, the planet of communication, provides you with the words of wisdom to balance the energy of those around you. Your ruling symbol, the Virgin, may seem innocent... but *she is fierce*. You are committed to making your dreams come true - regardless of how much time or effort it may take to manifest them.
