

# Libra

Libra is all about *living in love*. Born under the air element, this sign is known to change like the wind. Keep up when they're wild and you're in for adventure. Catch them in the calm and enjoy their *soothing presence*.

Ruled by Mercury, the planet of love and beauty, Libra loves to enjoy the *luxuries of life*. There's always a good reason for another adornment... and we couldn't agree more. It's *all about balance*. Symbolized by the scale, this sign will fight for what is fair and equal. They are loyal to the core and will always have your back.
