

Aquarius

Aquarius is progressive and *unapologetic*. Bearing a strong, humanitarian spirit and a mind for innovation, those born under this sign are the *fierce leaders* of their tribe. They fight for the greater good of the world and inspire a passion within others to do the same.

Under the air element, Aquarius is all about *freedom*, while the symbol of the water-bearer connects them to the vision of spreading equality and inspiring a flow of individuality. They meditate on how to spread positivity, while dancing to the beat of their own drum - the perfect combination of *wild and soulful*.
